

the Graphic Novel in Latin America, which is the first book-length study of the topic, argues that the graphic novel is emerging in Latin America as a uniquely powerful force to explore the nature of twenty-first century subjectivity. The authors place particular emphasis on the ways in which humans are bound to their non-human environment, and these ideas are productively drawn out in relation to posthuman thought and experience. The book draws together a range of recent graphic novels from Argentina, Brazil, Chile, Mexico and Uruguay, many of which experiment with questions of transmediality, the representation of urban space, modes of perception and cognition, and a new form of ethics for a posthuman world. Praise for Posthumanism and the Graphic Novel in Latin America '...well-referenced and... well considered - the analyses it brings are overall well-executed and insightful...' Image and Narrative, Jan 2018, vol 18, no 4 A child befriends a wave at the seashore and brings her home. A groundbreaking cultural history of the most influential, most frequently translated, and most imitated novel in the world. The year 2015 marks the four hundredth anniversary of the publication of the complete Don Quixote of La Mancha—an ageless masterpiece that has proven unusually fertile and endlessly adaptable. Flaubert was inspired to turn Emma Bovary into “a knight in skirts.” Freud studied Quixote’s psyche. Mark Twain was fascinated by it, as were Kafka, Picasso, Nabokov, Borges, and Orson Welles. The novel has spawned ballets and operas, poems and plays, movies and video games, and even shapes the identities of entire nations. Spain uses it as a sort of constitution and travel guide; and the Americas were conquered, then sought their independence, with the knight as a role model. In Quixote, Ilan Stavans, one of today’s preeminent cultural commentators, explores these many manifestations. Training his eye on the tumultuous struggle between logic and dreams, he reveals the ways in which a work of literature is a living thing that influences and is influenced by the world around it.
