**The Killer of Little Shepherds Feb 22 2023** At the end of the nineteenth century, serial murderer Joseph Vacher, dubbed "The Killer of Little Shepherds," terrorized the French countryside. He eluded authorities for years-until he ran up against prosecutor Emile Fourquet and Dr. Alexandre Lacassagne, the era's most renowned criminologist. The two men typified the Belle Epoque, a period of immense scientific achievement and fascination with its promise to reveal the secrets of the human condition. With high drama and stunning detail, Douglas Starr recounts the infamous crime and punishment of Vacher, interweaving the story of how Lacassagne and his colleagues developed forensics as we know it. We see one of the earliest uses of criminal profiling, as Fourquet painstakingly collects eyewitness accounts, leading to Vacher's arrest. And we see the twists and turns of the celebrated trial: to disprove Vacher's defense by reason of insanity, Fourquet recruits Lacassagne, who had revolutionized criminal science: refining the use of blood spatter evidence, systematizing the autopsy and doing ground-breaking research in psychology. Lacassagne's forensic investigation ranks among the greatest of all time, and its denouement is gripping. An important contribution to the history of medicine and criminal justice, impressively researched and thrillingly told.

**Blood Jul 23 2020** **Essence and emblem of life--feared, revered,  
mythologized, and used in magic and medicine from earliest  
times--human blood is now the center of a huge, secretive, and**

**often dangerous worldwide commerce. It is a commerce whose impact upon humanity rivals that of any other business--millions of lives have been saved by blood and its various derivatives, and tens of thousands of lives have been lost. Douglas Starr tells how this came to be, in a sweeping history that ranges through the centuries. With the dawn of science, blood came to be seen as a component of human anatomy, capable of being isolated, studied, used. Starr describes the first documented transfusion: In the seventeenth century, one of Louis XIV's court physicians transfers the blood of a calf into a madman to "cure" him. At the turn of the twentieth century a young researcher in Vienna identifies the basic blood groups, taking the first step toward successful transfusion. Then a New York doctor finds a way to stop blood from clotting, thereby making all transfusion possible. In the 1930s, a Russian physician, in grisly improvisation, successfully uses cadaver blood to help living patients--and realizes that blood can be stored. The first blood bank is soon operating in Chicago. During World War II, researchers, driven by battlefield needs, break down blood into usable components that are more easily stored and transported. This "fractionation" process--accomplished by a Harvard team--produces a host of pharmaceuticals, setting the stage for the global marketplace to come. Plasma, precisely because it can be made into long-lasting drugs, is shipped and traded for profit; today it is a \$5 billion business. The author recounts the tragic spread of AIDS through the distribution of contaminated blood products, and describes why and how related scandals have erupted around the world. Finally, he looks at the latest attempts to make artificial blood. Douglas Starr has written a groundbreaking book that tackles a subject of universal and urgent importance and explores the perils and promises that lie ahead.**

**The Light of the World Jan 09 2022 Two-time Newbery Award-winning author Katherine Paterson tells the story of Jesus's life with extraordinary clarity and grace, accompanied by paintings as human and reverent as the text. "When the people looked at all the sadness and evil in the world, they had trouble believing that God was in charge. 'God's kingdom,' said Jesus, 'is as tiny as the smallest of seeds, but when it is planted it grows into such a huge tree that the birds make their nests in its branches.'" Newbery Medalist & minister's wife Katherine Paterson retells the life of Jesus in simple, beautiful language for all ages, making the story new again through her trademark generosity and compassion. Iconic images from Jesus's life light the text with the same warmth and directness. A perfect gift book!**
